DEFINITION OF 'DEPENDANT'

With the coming into force of the Commonwealth of Dominica Citizenship by Investment (Amendment) Regulations, 2020, significant changes have been implemented to enhance Dominica's Citizenship by Investment Programme.

The changes have the primary effect of broadening the definition of 'dependant' under the Citizenship by Investment Programme, as well as expanding the opportunities for family members of investors who have already obtained economic citizenship.

Please be advised that the following persons are now eligible to be included as dependants under the Programme:

- A spouse of the main applicant

- Children of the main applicant or of the spouse of the main applicant who are below the age of 18

- Children of the main applicant or of the spouse of the main applicant who are aged 18 to 30 and who are substantially supported by the main applicant or the spouse of the main applicant

- Children of the main applicant or of the spouse of the main applicant who are aged 18 years or over and physically or mentally challenged and who are substantially supported by the main applicant or the spouse of the main applicant

- Parents or grandparents of the main applicant or of the spouse of the main applicant who are substantially supported by the main applicant or the spouse of the main applicant, or the spouse of any such parent or grandparent
- Biological or legally adopted siblings of the main applicant or of the spouse of the main applicant who are aged 18 to 25, single, childless, and who are substantially supported by the main applicant or the spouse of the main applicant
- Biological or legally adopted siblings of the main applicant or of the spouse of the main applicant who are below the age of 18, single, childless, substantially supported by the main applicant or the spouse of the main applicant, and in receipt of consent to make an application under the Programme from all individuals with parental responsibility for that sibling

Kindly be advised that the category for "unmarried daughters" has been removed, as this is now encompassed by the category for adult children
