THE DOMINICA YACHT REGISTRY

The Commonwealth of Dominica is proud to offer yacht owners commercial and private, the opportunity to join an International Yacht Registry. No tonnage tax and no size restrictions are just some of the privileges. The length of registration periods can be customised and special registration offers exist for three or five years registrations. Registering a vessel under the Commonwealth of Dominica is efficient, straightforward and cost effective. The Dominica Consulate in Athens, established since 2010, provides guidance and assistance to the local and the international yacht community with regards to vessel registration, mortgage recordation, forming Dominica business entities and the renowned Dominica Citizenship by Investment Program.
